ATTENTION DELIVERY DRIVERS!

The most important thing we do every day is ensuring we have safe environments for everyone on the team.

Time has taught us that the most severe accidents involve LEFT HAND TURNS. Please be aware of the key points below.

Avoid left hand turns where possible, some of the reasons that causes left hand turn accidents:

- Distance of the oncoming traffic.
- Speed of the oncoming traffic.
- Timing of the red light (if there is one)
- Possibility of pedestrians in the crosswalk.
- Size of the intersection.

Safe Driving Tips

It is well recognized that texting while driving dramatically increases the risk of a motor vehicle injury or fatality.

We ask and encourage that you keep your safety and of those around you in mind every choice you make while driving.

**MORE PEOPLE ARE
KILLED EVERY
YEAR
IN MOTOR VEHICLE
ACCIDENTS
THEN ANY
OTHER CAUSE.**

Other Safe Driving Tips

REAL FACTS & STATISTICS!

** As per National Safety Council (NSC) **

- More than 2.5 million people are involved in crashes each year, and distracted driving is the leading cause. By some estimates, as many as 1,000 people are injured every day in crashes related to distracted driving.
- It takes your brain up to 13 seconds to refocus on your surroundings after looking at your cell phone — even if you “only glanced at it for a second.” As your brain refocuses, your driving skills are not at their best.
- When you attempt to multitask while driving, your eye activity slows down and your problem-solving skills are diminished.
- A person who texts and drives is six times as likely to have a crash than someone who drives intoxicated.
- Eating while driving is riskier than talking on a cell phone. Food can cause problems like spills and leaks that demand your immediate attention and may cause you to take your eyes off the road. If you're eating, you're also taking at least one hand off the wheel, which reduces your ability to react to driving situations.
- One study found that nearly 80% of crashes involved driver inattention in the three seconds right before the crash. The study also pointed to driver inattention as the leading factor in crashes and near-crashes.

Other Safe Driving Tips

YOUR SAFETY IS OUR BUSINESS!

At CFL Pizza LLC, we are committed to employee safety and for this reason we firmly prohibit all behavior that distracts employee while they are operation a vehicle. Here are some of the general guidelines for behavior while driving:

- Use of handheld cell phones, electronic devices are strictly prohibited to use for phone calls, texting, SMS messaging, internet use and camera use while driving.
- If a call needs to be made, please STOP, pull over and make your call. Otherwise, voicemail should handle all calls and you can return the call at a later time when stopped or off the road.
- Should a co-worker call while you are driving, call back at an appropriate time later.

The use of the following items are permissible if and only when these items do not cause a distraction to the driver, interfere with driver's ability to drive safely or become an obstruction to the driver's view.

- Headsets/Hands-Free Cell Phones
- GPS Systems – Programming devices while in motion is strictly prohibited.
- Bluetooth and other Audio Devices – we don't want to eliminate the employee's ability to enjoy music while driving, but we do prohibit the programming of music settings and players while driving.

Other Safe Driving Tips

**YOUR SAFETY AT WORK IS NO
ACCIDENT!**

Although we strive to avoid any accidents, please remember these five key steps when recording an accident:

1. Contact Police Immediately
2. Do not admit fault. Do not discuss the details of the accident with anyone except the police.
3. Report accident to employer (RGM or manager on duty) immediately.
4. Take photos of the accident, if camera or cell phone is available.
5. Record accident details with your RGM and

These simple but important steps will provide important details in relaying the accident details to the insurance carrier

ALWAYS...

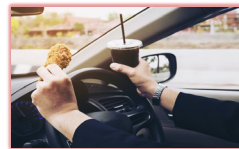

Remember to

- Drive Defensively (Anticipate what other drivers might do wrong and plan ahead)
- Respect speed limits and traffic signs
- Use Seatbelts! (as required by law)
- Maintain a safe distance away from the car in front of you
- Be aware of your surroundings!
- **Never text and drive!**

Examples of Distracted Driving

- Talking or texting on the phone
- Eating or drinking
- Applying makeup or shaving
- Reading a newspaper or book
- Watching a video
- Programming a GPS

Can You Do Two Things at Once?

TRY reading and talking on the phone at the same time.

**You can't pay
attention to both.**

Multitasking is a myth.

NEVER drive and use your phone at the same time.

**Focus on driving and get to
your destination safely.**
